SKILLS

+ Networking

+ Android development

+ Communication Skills

+ Web vulnerabilities

+ OWASP ZAP

+ SQL Injection

+ BurpSuite

+ A.I prompts

EXPERIENCE

Decathlon, Mumbai- *Omni Sport leader*

07/2023 – Present

- Created my own Online Order Tracking Application (Kotlin and Firebase)
- I have been involved in two major event from my store as a team lead
- Was Awarded Customer Obsessed
- I have learned various thing such as Time management, Team management , Leadership skills and Communication skills
- Also had my own digital projects.

EDUCATION

Sheth N.KT.T College Of Commerce And Sheth J.T.T College Of Science And Arts, Thane - *H.S.C* **(2020 - 2021)**
Percentage-70.6%

Tilak Maharashtra Vidyapeeth,Kharghar - *Bachelor of Computer Application (Cyber security),* 2021 - 2024
CGPA-7.7

SUMMARY

 A recent BCA graduate with a specialization in Cyber Security, possessing a strong foundation in computer science and hands-on experience in vulnerability assessments and penetration testing to enhance organizational security. Proficient in identifying and mitigating OWASP Top 10 vulnerabilities, as well as OWASP Top 10 API Security Risks.

Skilled in Android development, demonstrated through the development of an online music application, where I actively identified bugs and improved overall functionality.

Additionally, I have extensive experience working with various Linux distributions, including Debian, Ubuntu, CentOS, and Red Hat, with expertise in system administration tasks, scripting for automation, user management, network configurations, and virtualization technologies. To further enhance my cybersecurity knowledge, I completed a comprehensive course on Udemy, solidifying my understanding of key cybersecurity principles.

I am a team-oriented individual with strong strategic thinking, problem-solving abilities, and a resilient attitude. I am eager to apply my technical expertise and collaborate with like-minded professionals to tackle emerging challenges in the field of cybersecurity.

Personal details

I like to read news related to technology and market My favorite sports

are basketball , carrom , hiking and chess

School Basketball team Captain.

I was winner of inter college I.T I.Q Competition

Project

> Music Application(Kotlin and Firebase)

> Online Order Tracking Application (Kotlin and Firebase)

> Chatting Application(Kotlin and Firebase)

> Basic Netflix Clone (Html ,CSS and javascript)

> Encryption and decryption software

> Made a Portfolio Website for a lawyer

> Installed Metasploitable and tested it

> Created my own Virtual lab for Malware Testing and Attack

> Encrypted Password decoded

>Created a portfolio website (Tailwind , React)

Certification

- EC – Council Certified Sql Injection Attacks
- Tata Group – Cybersecurity Analyst Job Simulation
- Goldman Sachs – Software Engineering Job Simulation
- IBM and Cybersecurity
